Career Quotes Professional the best! Efficient the best! Professional is the best, efficient is the best, tenacious is the best, and disciplined is the best. John Patton Be kind to one another, love the way God loves you and the rest is history. Mary Tyler Moore A good mixture of sense and nonsense, flying and freedom. Horace They tell me there is a God, but I don't believe them; I saw him once. Bert Williams "We are undoubtedly the meanest, the most stupid, the most dishonourable and the most intolerant nation on the face of the earth," said U.S. President Woodrow Wilson to the American people in 1915. Anthony Burgess "Everything is in process of being discovered, or being discovered by someone else." Quotations are no more than... Sebastien Calas, French author and philosopher, "Aristotle teaches us that a quote can be read in many ways. It can be used either way; it can be placed in a good position. (...) Or else, it can be manipulated, cut, stretched, contracted to add other meanings." Danièle Huillet, French writer and film-maker, "In order to make a picture, you need a quote to refer to. But if you can't find any, it's no use trying to make up one; it's a hopeless task. (...) You can find a quote for every situation." Emilie Morel, French writer and film-maker, "Often a quote must be associated with the letter Z, to preserve the 'meteorological effect' or to avoid ambiguity. This is one of the examples of how a really honest meaning is softened and smoothed, sometimes actually destroyed by the telling."Q: iterating through a dictionary of dictionaries I have a dictionary of dictionaries. Here is the code: dict1 = { 'group1' : { 'item1': list('dictionary' of dictionaries), 'item2': list('dictionary' of dictionaries) } }
